## Description:

The Detailed Overview Plan is one of the three planning instruments available to Swedish administrations and represents an intermediate scale. Like the Overview Plan, compliance with it is not mandatory, but it serves as a supporting plan for Detailed Plans, sharing the characteristic of regulating a specific area of the Kiruna municipality rather than its entire extent, as the Overview Plan does. This specific plan focuses on the central area of Kiruna and its surroundings, incorporating all the projections of the Development Plan into a prescriptive tool.
